

## 18<sup>th</sup> WOSonOS

World Open Space on Open Space in Berlin, Germany, May 12 to 15, 2010

*"...At the end of the day Open Space Technology is not about having great meetings. Nor is it simply another tool in the facilitators' tool box, although both are doubtless true. For me the true equity I find in OST is the ongoing natural experiment and learning experience of living intentionally in a self-organizing world." (Harrison Owen, 2009)*

### Purpose

WOSonOS is the annual worldwide meeting of Open Space practitioners which moves from continent to continent every year. It is always a great chance to reflect on our common practice and to connect with others: We look forward to welcome people from all parts of Europe and many more from around the world - especially you.

Come to Berlin and experience a complete 3 day Open Space conference with people from all over the world: Open Space workers, facilitators, sponsors, organizations who use Open Space and more. Let your issues be part of the agenda, find partners for exploring, learning, sharing, collaboration and discovering - rejoin and make new friends.
